

Juergen Schlette
(GID: Z0042SCW)

successfully completed the 00:15 (HH:MM) training "Data Privacy Essentials" on 26-MAY-2021.

DP Essentials provides an overview of the fundamental principles of data privacy: what needs to be observed in the event of a data privacy breach, what is meant by the need-to-know principle - and where to find support for all questions relating to data privacy at Siemens.

The short quiz at the end of the course served to monitor the learning success.
